Dear Prof. Szczerba,

As a lead author of the paper entitled "Looking for the underlying cause of black hole X-ray variability in GRMHD simulations" [Monthly Notices of the Royal Astronomical Society, Volume 496, p. 3808–3828 (2020)], I performed one of the five simulations utilized in this paper and I did the majority of analysis and prepared the manuscript with guidance from the co-authors. My contribution is about 70% of the total effort of this paper.

Sincerely,

Deepika b
